

Dear student of iMedia School,

In order to achieve best results in your GCSE Maths test, you should be revising at least 5 hours of Mathematics per week from now on. While this appears to be a high proportion of your time to spend revising for one subject, achieving a grade 5 or above in Mathematics will have a significant impact on your opportunities for access to higher education and employment in the future.

The most important aspect of your Maths revision is practicing and marking past exam papers (see below). We have an open door policy and you are welcome to ask the Mathematics teacher if you have a problem with the work.

To help best prepare you for your Maths exam, we are providing you with past exam papers and a list of useful resources to help you revise at home.

Suggested websites for your revision

You need to have a CPG revision guide.

Below are suggested websites that you can use at home to help prepare for the exam:

Problem solving resources

https://www.amazon.co.uk/REVISE-Edexcel-Mathematics-Higher-Revision/dp/1447988094/ref=sr_1_1?s=books&ie=UTF8&qid=1514583687&sr=1-1&keywords=Revise+edexcel+GCSE+Mathematics+higher+Revision+Cards

May I reiterate once more that it is vital you spend at least 5 hours a week revising for your Maths exam.

Good Luck,

Mr Hussain
